Monthly Report

PAR 245
31 July 67

SUBJECT: BPE High-Magnification Lens Sets

TASK/PROBLEM

1. Design, fabricate, and test prototype optical systems to extend the Briefing Print Enlarger (prototype) PAR 243A upper limit magnification range from 60X to 140X - 160X.

DISCUSSION

2. The two objective lens focus barrel assemblies are due to be delivered to the contractor on or about 4 August 1967.

3. Mechanical parts for the deliverable condenser assemblies are being fabricated.

PLANNED ACTIVITY

4. When the focus barrel assemblies are received by the contractor, conduct lens performance tests on the BPE breadboard using the breadboard condenser assemblies.

Declass Review by NGA.

GROUP 1
EXCLUDED FROM AUTOMATIC DOWNGRADING AND DECLASSIFICATION
